The Company

iCons, established in 1999, is a private and independent company providing market analysis and media communication services in the Energy, Environment, Health, ICT and Pharmaceutical sectors at the European level.

► Prefabricated Buildings of Wood

Follow this link to purchase your copy of the Edition 2009 of the Report "Production, external trade and market from 2004 to 2008 in EU 27 and Switzerland". According to your needs and requirements, our elaborations can include several countries and also include competitor analysis and market share, product and customer segmentation and forecast.

► Media Communication

iCons has developed over the past 10 years a successful new media communication model, based on the fully-owned brand www.youris.com enabling large multinational enterprises and organisations, as well as SMEs, to enter the main European TV media communication gateway, such as the Eurovision Worldfeeds or the pan-European station Euronews.

► Main References

iCons has been active since 1999 in the design, planning and implementation of a large number of national and international initiatives in the areas of science communication and business analysis, in several business sectors such as media, ICT, energy and environment...
